July 08, 2019

Dear Business Partner,

Subject : VALME acquired Pamec and expanded its range of products and services.

Hereby we would like to inform you that effective 01st July 2019 Valme – an international player in the design and manufacture of concrete distribution pipes and accessories, such as couplings, gaskets, and distribution lines – purchased 100% of Pamec – an Italian company specialising in the design and manufacture of components and equipment for concrete pumping lines and owner of long-standing brand Acme.

This merge and acquisition between Valme and Pamec aims at creating an international market leading group, whose production activities will be based in Italy, specialising in the manufacture of components and equipment for pumping lines in the following sectors :

- a) high-end double thickness solutions;
- b) standard solutions for ground pumping;
- c) components, equipment, and accessories (couplings, deviators, shut-off valves, and placing booms) for concrete pumping systems and other highly-abrasive materials.

Now, our clients can rely on even more specialised expertise and a wider range of products and services that can meet all the market requirements in terms of concrete pumping equipment and pumping systems and will allow us to develop new ideas and projects with high standard of quality and short delivery time and make us grow in the future with thanks to two production plants with a total covered surface of more than 16.000 sqm.

Our new organization will change in management but will continue to operate in its current structure.

Your new contacts will be :

Sales Manager : Mr. Maso Ivan – mobile phone number : 0039.348.4287942

E-mail address : ivan.maso@valme.it
